## Corporate ESG measurement and reporting

**Addressing the accelerating challenge of climate change.**

As part of Climate Finance Week 2019, the CDP Ireland Network is hosting an event on ESG reporting and measurement. It will focus on why leading Irish companies are making sustainability a priority for their businesses and why investors are increasingly considering ESG factors in their investment decisions. It is suitable for companies at all stages of the responsible business journey and will look at emerging trends such as ESG reporting, TCFD, Carbon Pricing and Science-Based Targets.

### 9:00am: REGISTRATION AND LIGHT REFRESHMENTS

#### 9:30am: Event start

## 11:30am: Workshops

### WORKSHOP 1:

Choose from one of the following workshops to help demystify the latest trends and emerging sustainability initiatives:

- **Sustainability & ESG Reporting.** Understand the available frameworks & schemes, the emerging best practices, common challenges, and success stories when it comes to reporting.
- **Setting and meeting climate change targets.** Demystify science-based targets, pledges and learn about the types of projects that can best help companies meet their sustainability targets such as renewables, offsetting emissions, responsible sourcing & circular economy projects.
- **Embracing Climate Related Risk and Opportunities.** Understand how to best integrate the TCFD recommendations into your business and how to effectively disclose this information to your stakeholders.

### WORKSHOP 2:

Led by companies that are responding to the various programs, gain insights and a better understanding of the CDP Climate Change, Forestry, Water and Supply Chain questionnaires.

13:00: Event close – Lunch sponsored by CPL plc
